

# YOU WILL NEVER CHANGE

**VERSE 1**    You have been our dwelling place  
              A rock amidst the waves  
              Though everything around us shakes  
              Your truth will still remain  
              Our anchor forever

**CHORUS**    Lord, You will never change  
              From everlasting You are God  
              Your love forever will endure  
              Your promises are sure  
              To everlasting You are God

**VERSE 2**    Our lives are like a passing dream  
              A thought that soon is gone  
              With all our strength we cling to You  
              Our rock, steadfast and true  
              Our refuge forever

**BRIDGE**    Teach us to number here  
              Our momentary years  
              From all eternity  
              You were and will always be
